7. [REDACTED] Talked with Bob Michaels, House Appropriations Committee staff. He confirmed our view that the conference on the [REDACTED] bill and passage by both Houses would not necessarily resolve the Agency's [REDACTED] problem which can only be resolved by Subcommittee action and notification to the Agency from both Houses. Of course, this action from the House side is dependent upon a final determination by Cannon and the Subcommittee. Discussed details of an appropriate letter to the Agency subject, of course, to final resolution of the specific figures.

8. [REDACTED] Talked with Congressman Mendel Rivers who advised he had made efforts this week to meet with the Rules Committee without success. He will be on a trip until the week of the 14th but stated he was going to push this as soon as he returned hoping for action either the week of the 14th of October or the 21st by Rules Committee on our early retirement bill. He also stated that as soon as he had a rule he would immediately push this out on the floor for House action.

JOHN S. WARNER
Legislative Counsel
